To the Network:

Finally Philippe Pissier mail me a similar postcard because of this mail art he is in trial in france.

He posted me: "hi Hans, here's a collage close to the picture-problem.

Cordially,Philippe Pissier "

The original is still in hands of the France state. I have asked him how his trial is going on, he answered me by mail:

As for the postcards, I'm free. But there are other griefs. Police manipulated former girl-friend in order she says i forced her (15 years ago) to pose for erotic photographs under the threat of a gun !

Nice, do you believe, that we are talking about Europe, not Iran or Guatemala?

The things are going down here. Nowadays i can understand, how facism in Europe have happened. The people don't have a real expression of their dignity and rights. They believe they are so democratic and try to rule the world, but when something happened in the neighborhood, they don't care, because it not their problem.

Do you will see the news soon, how the neonazis are getting in the German parlements.

After my Chilean experience in dictatorship, i often tell the Germans, why we do not enable a comision for human rights here? We do not need go to war in Afghanistan to play being democrats, why we do not start, with our neighbor, the immigrant or the poor sitting there asking at front of the shopping center for one cent of attention.
